AN ASSIMILATION OF UNIVERSAL ELEMENTS

Our story started in 1978. Since then we've grown by leaps and bounds and enriched many lives with our breathtakingly elegant laminates.

Our homes exude a personality. They are a reflection of our thoughts, vibes and ideas. This year, we give you a chance to lend a distinct touch to your homes. Presenting you – Crown Laminates. Bespoke and elegant, we bring to you an assimilation of the five universal elements – Earth, Water, Fire, Air and Space. The exuberance of each of these elements is entwined in our contemporary designs, with detailing done to perfection.

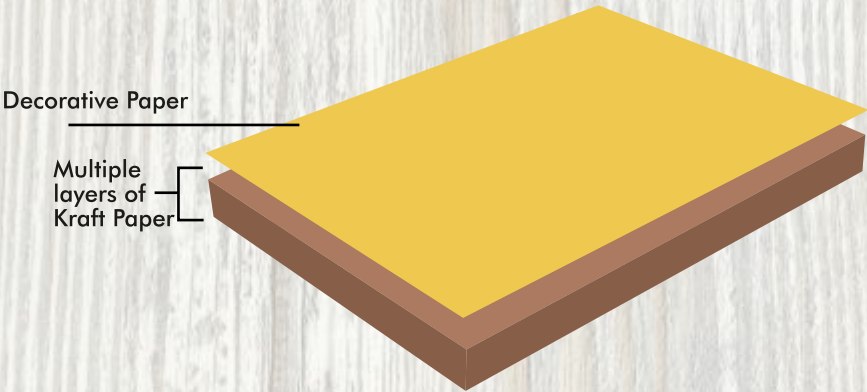

Each of the designs transport you to an alternate world. Thanks to its intricate detailing and symbolic color schemes. From Metallic to Lime Wood– finishes of these laminates have an intriguing story to tell. We offer myriad themes across the five elements, leaving you spoilt for choice

Giving your homes a regal, princely feel has never been easier.

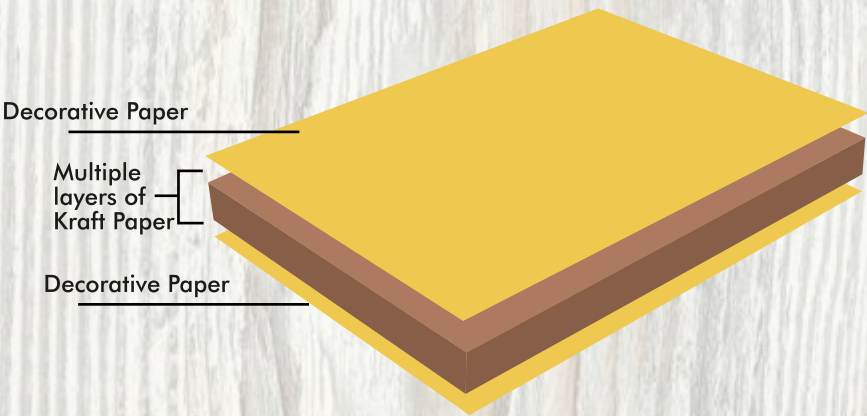

If you are looking for laminates that delivers a bold character to your interiors, we take great pride in delivering the crème de la crème of products that are a treat for your eyes. The team at Crown Decor believes strongly in the concept of innovation, and every day is a challenge to deliver something new and exciting. This is why we've been able to carve a niche for ourselves and are recognised as one of the best laminates brands in the global market.

COMPOSITION

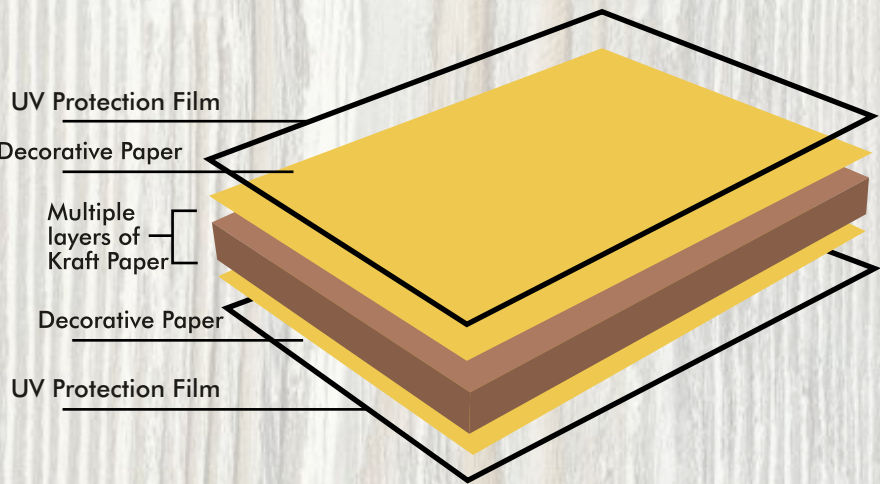

DECORATIVE

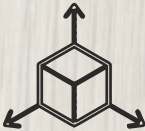

COMPACT

EXTERIOR

PRODUCT FEATURES

 Anti Bacterial	 Excellent Self Supporting Feature	 Greater Dimensional Stability	 Abrasion Resistant
 Flame Retardant	 Impact Resistant	 Easy to Assemble	 Hygienic
 Low Emission of Gases	 Scratch Resistant	 Resistance to Microbial Growth	 Easy to Clean
 Heat Resistant	 Decorative	 Water Resistant	 Resistant to harmful chemicals
 Horizontal/ Vertical Application			

AVAILABLE SIZES

1410 x 4300 mm, 1300 x 3050 mm, 1220 x 3050 mm, 1220 x 2440 mm

THICKNESS

Single Side : 0.6mm upto 1.5mm

Compact : 3mm upto 25mm

Resistance to Cigarette Burns	EN438 2/30	Grade 1 to 5	≥ 3

HANDLING & LOGISTICS

HPL panels should be handled with care in order to not damage the edges and surfaces of high quality material. In spite of the excellent surface hardness and the protection film, the weight of compact panels is a possible cause of damage. Therefore, any form of dirt or dust between these panels must be avoided. Panels must be secured against slippages during transportation. When loading and unloading, the panels must be lifted and not pushed or pulled over the edges.

During the handling and installation of compact panels, one must use protection gear especially hand gloves.

Compact panels must be stacked horizontally on flat and stable support with supporting panels. These panels must lie completely flat and the cover plates should be left on the stack which must be wrapped by a plastic cover.

The compact panels are to be stored in a closed room under normal climatic conditions to avoid excess humidity and heat, appropriate distance should be maintained between each side of the panel.

DON'T'S FOR A BETTER CARE

- ✗ Chop, Slice or Hammer directly
- ✗ Use sharp objects like knife or box cutters
- ✗ Hot cookware directly on the surface
- ✗ Expose to temperature over 60 degree for prolonged period
- ✗ Introduce water at the joints, which may cause expansion of substrate

CARE & MAINTENANCE

Crown Laminates are durable, abrasion and Impact Resistant. It hardly require any maintenance under normal use. However proper care makes them more durable to last longer.

- Do not use - any Sharp Object, Chop, Hammer or slice directly on the surface .
- Do not expose hot cookware directly on the surface as well as prevent exposure to more than 60 degree centigrade of heat which may cause delamination of surface from original substrate.
- Do not use cleanser and steel wool for cleaning. Instead use natural detergent or household cleaner. However for difficult stains soft nylon scrub in a circular motion may be used. If the stain still persists, backing soda paste with water can be used carefully and moderately. In some instances acetone (nail polish remover) denatured alcohol or undiluted household bleach can also be used. Any stain as well as cleanser must be wiped immediately and should not be allowed to rest for more than two minutes.
- Do not use Acid, Alkaline, Iodine, Hair Dye, Hair Tonic etc. which may cause discolouration and deterioration of surface.
- Do not use any of the above mentioned products on gloss surface laminates.

DISCLAIMER

Every care has been taken for product quality, but normal care for intended use is expected. Our liability remains only up to the sale value of the product to the buyer for a period of up to 3 years from the date of such sale.

adding colour and texture to your space

NOTES

The background of the page is an abstract composition of diagonal stripes. The stripes alternate between a light, off-white color and a dark, charcoal grey color. The light stripes have a subtle, embossed wood grain texture, while the dark stripes are solid and smooth. The stripes run from the top-left towards the bottom-right, creating a strong sense of movement and depth.
